

UberX Share Pilot Program

One month free UberX Share roundtrips from the Irvine Train Station to your worksite.

Use this program to find other train riders to split the cost of Uber rides after the free month is over.

Designed to help you find other train riders commuting to/from the Irvine Train Station to your worksite.

UberX Share is designed to add no more than 8 minutes to your trip on average. It matches with other commuters along your route.

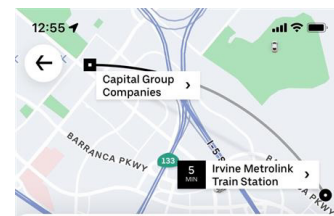

For example, if your trip is 12 minutes add 8 to allow for 20 minutes total to your destination. In our experience it was less, but take this into account when requesting rides.

Dropping PICK-UP PINS at the Irvine Station and your worksite increase your chance of matching with another commuter, though it cannot be guaranteed.

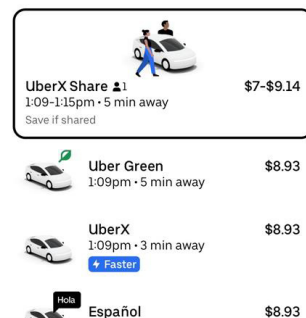

UberX Share allows only one seat request. You may not be matched with a co-worker, even if you are right next to each other when requesting the ride.

Select UberX Share

Choose the **UberX Share option** (scroll if you don't see it).

Choose a ride

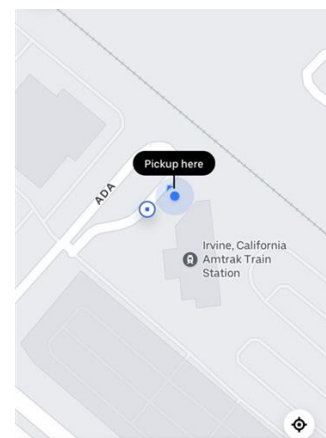

UberX Share cannot be scheduled ahead of time.

If Uber doesn't find a match for you, the ride will still show as UberX Share and will qualify for reimbursement.

Irvine Train Station to Your Worksite

Use either the **Irvine Metrolink Train Station** or **15215 Barranca Parkway** for your pick up location.

Confirm the pickup spot

Irvine, California Amtrak Train Station

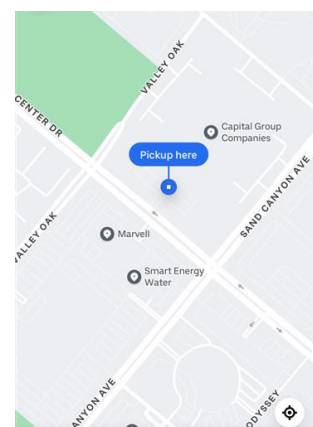

Confirm Pickup

When requesting your UberX Share, drop your **PICK-UP PIN** at the **5-Minute Passenger Pick-Up** at the station (off ADA).

Your worksite to the Irvine Station

Because you may be matched with a commuter along your route, **request your ride back to the Irvine Train Station with plenty of time** to make your train.

When requesting your UberX Share, drop your **PICK UP-PIN** at your worksite.
